

Accommodation

Westcott House has a comfortable lounge that provides a meeting point for our clients and serve as communal areas that along with our comfortable dining rooms allow clients to socialise in a friendly relaxed environment.

Clients are encouraged to make full use of the facilities particularly when entertaining visitors.

Should they wish they can use their rooms to meet with family and friends in complete privacy.

Bedrooms can be individually decorated to our client's wishes, if desired.

All of our bedrooms are fitted with a call bell, smoke detectors, washing facilities and wardrobes. The rooms are fully carpeted.

We encourage the personalising of all the bedrooms with photographs of family and friends. We also encourage the display of any personal pictures, prints or family portraits.

Most of the bedrooms at Westcott House are singles with en-suite facilities, however, there are some wonderfully large rooms which are well appointed with en-suite bathrooms for married couples.

The recently completed 18 Bedroom Unit at Westcott House.

Recently completed at Westcott House is a purpose built unit comprising eighteen rooms all with en-suite

facilities, specifically designed for clients with Mental Health problems. The Garden for this unit is safely enclosed
